 - portable/bailout oxygen system preflight
 - inspection and preflight operational 7-14
 - prebreather preflight inspection and
 - preflight operational 7-15

closed end cells malfunction, see malfunctions	
combat control team (CCT)	12-2 and 12-3
combat packs, medium and large	
attaching	4-13, 4-18, 4-20
packing	4-13
releasing	4-18
rigging	4-13, 4-15, 4-18 and 4-19
containers	
aviator's kit bag	3-1 and 3-2, 4-10 through 4-12
combat packs	4-10 through 4-20
controllability check	10-1
cutaway handle	2-7
cutaway procedures	
MC-3	A-11
RAPS	10-6
doglegs, calculating	B-4
drift and direction, calculating	B-3
drop zone control officer (DZCO)	12-2
drop zones	
authentication system	12-3 and 12-4
categories	12-1
CCT	12-3
identifying	12-3
markings	12-3
personnel qualifications and responsibilities	12-2
selecting	12-1 and 12-2
USAF DZCO	12-3
dual main and reserve deployment malfunction, see malfunctions	
drop zone safety officer (DZSO)	12-2
emergency procedures for	
free-fall	10-4
in-flight	10-2 and 10-3
landing	10-8
MC-3	A-9 through A-12
RAPS	10-1
entanglements	
MC-3	A-10 and A-11
RAPS	10-7
floating rip cord malfunction, see malfunctions	
forward throw, calculating	B-4
free-fall delays in HAHO	9-2
HAHO HARP, calculating	B-5 and B-6
HAHO offset parachuting	9-2
free-fall delays	9-2
jump phases	9-2
requalification and refresher training	C-5
special equipment needs	9-2
techniques	9-1
hard pull malfunction, see malfunctions	
helmet assemblies	2-2, 2-12, A-7
H-harness (modified)	4-10
high altitude release point calculation	B-1, B-5 and B-6
horseshoe malfunction, see malfunctions	
hung slider malfunction, see malfunctions	
in-flight emergency procedures	10-2
inspections	
aircraft	F-1
jumpmaster personnel	E-1
jump commands, see aircraft jump commands	
jumpmaster	
briefing checklist	G-1
cardinal rules	11-1
qualifications	11-1
responsibilities	11-1
jumpmaster personnel inspection MC-3	A-12
RAPS	E-1
landing approaches	
base leg	8-15
downwind leg	8-15
final approach	8-15 and 8-16
landing procedures, emergency	10-8
life preservers	
B-7	4-2
UDT	4-4
limited visibility operations	
adverse weather	14-1
night operations	14-1 and 14-2
line twists malfunction, see malfunctions	
load limitations	
parachute	4-1 and 4-2
parachutist	4-1, 4-3
lowering line assembly	4-4
