
INDEX

accident/incident control plan, E-7

AirLand Battle (ALB) doctrine, viii

ALB. *See* AirLand Battle doctrine.

ammunition accountability team. *See* wartime host-nation support ammunition units.

ammunition storage

ammunition drawings used for, 5-1

checklist, B-2

dunnage requirements for, 5-1

hazards, E-3

palletizing ammunition for, 5-2

segregating ammunition for, 5-2

stacking ammunition for, 5-1, 5-2

of suspended ammunition, 5-6

of unserviceable ammunition, 5-6

ammunition supply operations

issues, 6-3 through 6-5

receipts, 6-1 through 6-3

shipments, 6-5 through 6-8

turn-ins, 6-3

ammunition supply point (ASP)

location of, 2-2

site selection for, 2-4

stockage of, 2-2

type, number, size, and stockage objective of, 2-2

ammunition transfer point (ATP)

ammunition requirements for, 2-2, 2-3

DAO representative at, 2-3

location of, 2-2, 2-3

operated by DS company, vi, 1-10, 2-3

operated in division area, 1-10, 2-2

security at, 2-3

site selection for, 2-4

stockage objective for, 2-4

as supply facility, 2-2

as temporary location, 2-2

units supported by, 2-3

area layout plan, 2-6

designated sections for, 2-7

fundamental rules for, 2-6

overlays used in, 2-6

purpose of, 2-6

storage plan as part of, 2-5, 2-6

storage sections as part of, 2-6

ASP. *See* ammunition supply point (ASP).

ATP. *See* ammunition transfer point (ATP).

BCM. *See* chemical munitions.

captured enemy ammunition (CEA)

destroying, 5-7

inspecting, 5-7

managed by SAAS, 4-10, 5-7

reporting, 5-7

retrograding, 5-7

storing, 5-7

unitary munitions as, 5-8

care and preservation maintenance line

inspecting items at, D-1

layout of, D-2

repairs performed at, D-3

CCL. *See* combat configured loads (CCLs).

CEA. *See* captured enemy ammunition (CEA).

cellular logistics teams (CLTs), vi. *See also* wartime host-nation support ammunition units.

categories of, 1-6

functions of, 1-6

as managers of WHNS, 1-6

- chemical munitions, vi
- assembly of, 5-8
- security of, 5-9
- shipping, 5-8
- special handling procedures for, 5-8, 5-9
- storing, 5-8

CLT. *See* cellular logistics teams (CLTs).

combat configured loads (CCLs), vi, 1-10, 2-2, 2-7

communications

- communications-electronics operation instructions (CEOs), 4-3, 4-7
- communications security (COMSEC), 4-7
- flow between units, 4-3 through 4-6
- means of, 4-3, 4-7
- mobile subscriber equipment, 4-3 through 4-6
- personnel, 3-7, 4-3
- security, 4-7

contaminated ammunition

- decontaminating, C-2
- issuing, C-2
- transporting, C-2

contingency plan, 3-2 through 3-4

conventional ammunition ordnance companies

- GS ammunition company (TOE 09488L000), 1-1, 1-2, 1-4
- DS ammunition company (TOE 09483L000), 1-2, 1-4 through 1-6

conventional ammunition support units

- ammunition ordnance battalion (DS/GS) (TOE 09666L000), 1-2, 1-3
- ammunition ordnance group (DS/GS) (TOE 09662L000), 1-2
- corps support battalion (TOE 63426L000), 1-2, 1-4
- corps support group (TOE 63422L000), 1-3
- EOD units. *See* EOD units.
- MP heavy-security company (TOE 19497L000), 1-2, 1-4

corps storage area (CSA)

- location of, 2-2
- operation of, 2-2
- site selection for, 2-4
- stockage of, 2-2
- type, number, size, and stockage objective of, 2-2

CSA. *See* corps storage area (CSA).

damage control plan, 4-8, 4-9

defense plan, 4-8

defense planning, 4-7, 4-8

depleted uranium, D-1, E-3

destruction plan, 5-6

EOD units

- C² of, 1-11
- capabilities of, 1-11
- EOD augmentation response team (TOE 09527LC00), 1-11
- EOD control team (EODCT) (TOE 09527LA00), 1-2, 1-4
- EOD detachments (TOE 09527LB00), 1-11

Explosive Safety Program, 5-4

field storage area

- ASP as, 2-2
- CSA as, 2-2
- site selection for, 2-4
- size of, 2-3
- storage systems used at, 2-3
- storing assets at, 2-3
- TSA as, 2-1

field storage systems

- area storage system, 2-3
- combination area and roadside storage system, 2-4
- modular storage system, 2-4
- as part of storage plan, 2-5
- roadside storage system, 2-3
- urban/village built-up storage system, 2-4

fire plan, E-7

fixed-site storage area, 2-4

GMLR. *See* guided missile and large rocket (GMLR) report.

guided missile and large rocket (GMLR) report, 4-10, 4-11

host-nation support (HNS)

- factors to consider when employing, 4-10
- local civilian personnel used as, 4-9
- means of finding, 4-9
- possible occupations for, 4-9
- recruiting civilians as, 4-9
- static and mobile, 4-9
- supervision of, 4-9

inspections

- CEA, 5-7
- GMLR, 5-5
- MHE and lifting devices, E-4 through E-6
- physical defect standards for, 5-4
- salvage material, 5-8
- serviceability standards for, 5-4
- surveillance, 5-4
- turn-ins, D-1
- unserviceable ammunition, 5-6
- vehicle, 6-2

issues. *See* ammunition supply operations.

LIC. *See* low-intensity conflict (LIC).

lift capabilities, 1-1, 1-4, 2-3

low-intensity conflict (LIC), vi, viii

maintenance, 5-2. *See also* care and preservation maintenance line.

- categories of, 5-3
- checklist, B-2, B-3
- levels of, 5-2
- planning, 5-2
- SOP, 5-3
- unit responsibilities for, 5-2, 5-3

Maneuver-Oriented Ammunition Distribution System enhanced by palletized load system (MOADS-PLS), vi. *See also* palletized load system (PLS).

Maneuver-Oriented Ammunition Distribution System (MOADS), vi

- at ASP, 2-2
- concept of operation for, 1-9
- at CSA, 2-2
- in theater of operations, 1-9, 1-10
- at TSA, 2-1

manual stock accounting system, 4-10. *See also* Standard Army Ammunition System (SAAS).

- stock accounting documents for, 4-12
- stock record set for, 4-12
- storage documents for, 4-12

MCC. *See* movement control center (MCC).

MCT. *See* movement control team (MCT).

MOADS-PLS. *See* Maneuver-Oriented Ammunition Distribution System enhanced by palletized load system (MOADS-PLS).

mobile subscriber equipment (MSE), 4-4 through 4-6. *See also* communications.

movement control center (MCC), 1-2, 4-2, 6-6

movement control team (MCT), 1-2, 3-3, 4-2, 6-6

night operations, 5-9

palletized load system (PLS), A-1 through A-7

PLS. *See* palletized load system (PLS).

prepackaging, 3-3

Quality Assurance, Ammunition Surveillance Program, 5-3. *See also* surveillance.

quality assurance specialists (ammunition surveillance) (QASASs), 5-3

receipts. *See* ammunition supply operations.

reconnaissance. *See* site selection.

retrograde operations, 3-3, 3-4

rewarehousing, 5-9

SAAS. *See* Standard Army Ammunition System (SAAS).

safety, 2-4, 2-6, E-1 through E-7
checklist, B-3

salvage material, 5-7

- inspecting, 5-8
- recording, 5-8

semifixed storage area, 2-4

shipments. *See* ammunition supply operations.

site selection

- alternate site, 2-4
- primary site, 2-4
- reconnaissance, 2-4, 4-2
- tactical conditions, 2-4

sling-out operations, 5-9

- sling-out area, 2-7, 5-9

STANAG. *See* standardization agreements (STANAGs).

Standard Army Ammunition System (SAAS)

- levels of, 4-11
- management of, 4-10
- purpose of, 4-10
- references for, 4-11

Standard Automated Management Information System (STAMIS), 4-10. *See also* Standard Army Ammunition System (SAAS).
